

# PBPK model for PFAS Elimination from Cattle for USDA

Mike DeVito

Aug 13, 2020

# Brief History

- A project was developed with Ron Hines and USDA to develop a PBPK model for cows based on data being collected by USDA from a PFOA/PFOS contaminated dairy farm in New Mexico.
  - (b) (5) [REDACTED]
- Water and tissue samples were collected and analyzed by USDA
- NHEERL was supposed to develop a PBPK model for this.

# Present
